

Keytrade Bank Luxembourg has joined the ABBL, the Luxembourg Bankers' Association

By joining the ABBL (*Association des Banques et Banquiers Luxembourgeois*), Keytrade Bank has further strengthened its position on the Luxembourg market.

Operating in Luxembourg since 1999 via its online brokerage platform, Keytrade Bank has been offering financial services to local and international individual and corporate investors since 2010. Keytrade Bank is a Luxembourg bank regulated by the CSSF (*Commission de surveillance du secteur financier*).

Becoming an ABBL member demonstrates Keytrade Bank's confidence in the Luxembourg market as well as the bank's cosmopolitan and increasingly diversified future. Thibault de Barsy, CEO of Keytrade Bank Luxembourg, stresses the importance of asserting the bank's unique offering – namely an online trading platform as well as traditional bank products such as savings solutions.
